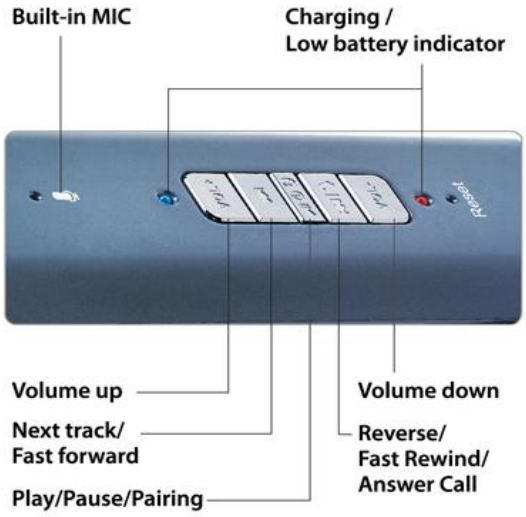
TRANSBar

Unfold into a Wireless Bluetooth Loudspeaker

Genius proudly presents the TRANSBar- another great addition to our illustrious list of technological marvels possessing a 'world's first' title! This ultra-compact 2.1ch mobile speaker system is the world's first portable speaker system designed to work with Bluetooth-enabled devices of all sizes, whether it be an iPhone, iPad or a tablet PC! Inspired by the tripod's unparalleled portability, the TRANSBar can effortlessly fold into a compact bar-shaped speaker for your music playing device, or just as easily unfold to function as a stable and secure frame for your iPad, tablet PC or smartphone. Additionally, TRANSBar features a built-in rechargeable Lithium-ion battery so you can enjoy your favorite tunes on-the-go without being entangled in a sea of wires and cables.

Whether you're at home, work or on a train, the Genius TRANSBar promises unlimited possibilities for unwired music!

A2DP | AVRCP | Stereo sound | 2-in-1 Speaker & Stand | Hands-free MIC in | Rechargeable battery | AUX-in



Unfold to function as a stable and secure frame for your iPad, tablet PC or smart pad

Hands-free MIC in — Bluetooth range: 10 meters or 33 feet Built-in MIC for voice conversation

A2DP / AVRCP — Bluetooth 3.0 for connecting iPhone, iPad, Smartphone, tablet PC wirelessly

Rechargeable battery / Micro USB — Built-in rechargeable battery USB Charging Up to 15 hours of continuous play *varies by audio content/volume

Stereo sound — The dual satellite transducers and U-type subwoofer driver are driven by powerful neodymium magnets. The design provides a full and rich frequency response

AUX-in — Stereo mini jack connection and audio input cable allow you to enjoy high-quality audio from a variety of devices with 3.5mm universal jack
